

Concord[®]

Protection for everything
you've worked so hard to build.

Concord[®] security systems to safeguard your family and home.

Smoke detectors are monitored and remain active 24 hours a day.

Carbon monoxide detectors are active 24/7 to sense hazardous levels of carbon monoxide gas

Motion sensors cover strategic areas inside your house, backing up the perimeter sensors with added defense.

Keyfobs provide easy touch control to arm and disarm the system.

Door and window sensors detect the opening of doors and windows.

Recessed door/window sensors are completely hidden. Perfect for entries and living areas.

Environmental sensors can warn you of furnace failure and flooded basements.

Putting the right system together for you.

The Concord® system allows you to enjoy comprehensive security that's just right for your situation. You can also integrate other systems including energy management, lighting and audio/video control. Tailor your system by choosing from a variety of available options and features to meet your precise security needs:

Notice of security events can be sent to you via pager; notice via cell phone and email is available for Concord 4 through Alarm.com services

Motion sensors provide a second line of defense, detecting the body heat of an intruder. Sensors can be adjusted to allow pets to move freely without activating an alarm

Door and window sensors can protect every access point to your home, including shock sensors that detect shattering glass and splintered wood. Recessed sensors are completely hidden and ideal for entries and living rooms

Simple keychain operation allows you to arm/disarm the system with the touch of a button, no codes required

Portable panic buttons make it easy to summon help in an emergency

Smoke and heat detectors are monitored and remain active 24-hours a day

Environmental sensors warn you of furnace failure or if a basement is flooded

Carbon monoxide detectors alert when dangerous levels of carbon monoxide gas are present

Concord security systems monitor your home 24 hours a day, providing you with immediate notification of a security threat. When a sensor detects an emergency, the signal automatically goes to the central monitoring station and the proper authorities are immediately dispatched to your home.

Concord 4

Concord® 4 provides residential and commercial environments with full-featured security. Concord 4 offers 96 hard-wired zones, wireless zones or combination of both. Flexibility continues with convenient features such as a wireless keychain touchpad to arm or disarm the system, optional lighting controls and a special latchkey function for working parents that pages when a child arrives safely at home. The wireless GSM gateway module allows you to monitor your home or office building status from a smartphone app or from the Alarm.com web site.

Concord Express

Concord Express provides integrated security that can be set up as a hard-wired or wireless system perfect for retrofit environments. Concord Express installs easily and provides up to 24 zones of burglary and fire protection for a comprehensive and affordable security option.

| Concord 4 | | Concord Express |
|-------------|--|--|
| 96 standard | Number of Zones | 6 standard, expandable to 6 hard-wired, 16 wireless zones* |
| ✓ | Smoke detector compatibility | ✓ |
| ✓ | Hard-wired and wireless capability | ✓ |
| ✓ | Chime when door is opened | ✓ |
| ✓ | Wireless remote keychain arming/disarming | ✓ |
| ✓ | Integration to third party automation systems | |
| ✓ | Compliant with CP01 false alarm reduction standards | ✓ |
| ✓ | GSM cellular communications (no phone line necessary) | ✓ |
| ✓ | Latch key reporting** | ✓ |
| ✓ | Alarm.com Interactive Services Web browser based/cell phone system interaction—management, command, control, configuration, reporting & event driven notification | |

*Expandable 8 hard-wired with optimal input board.

**With use of a third party device.

Keypads

Concord® security systems offer numerous keypad options to match the functions you need and the preferences best suited for your situation. The keypad allows you to turn the security system on or off by entering a simple numeric code. Designed with functionality in mind, these keypads complement virtually any décor and feature easy-to-read information displays. Dedicated emergency keys can be programmed so that Fire, Police or EMS can be contacted at the touch of a button.

Concord system keypads display clear indicators and messaging to give you complete system information and status.

Sensors and Peripherals

A full line of intrusion protection solutions is complemented by a large selection of sensor and peripheral components that can enhance your home's security. Wireless and hard-wired sensors are compatible with all products, including the new slim-profile DesignLine sensors. These added security elements represent our commitment to comprehensive security and protection:

Door/window sensors

Motion detectors

Magnetic contacts

Wireless smoke and carbon monoxide detectors

Keypads and keyfobs

Glassbreak and shock sensors

Cellular-based communication modules

Minimal drilling. Maximum security.

Featuring wireless components that make it well suited for homes that aren't newly constructed, Concord® offers powerful, expandable security that is easy to install because less drilling is required for a wireless system. With Learn Mode technology and a modular design, Concord provides outstanding flexibility in a full-featured security system for intrusion, fire detection, carbon monoxide detection, temperature extremes and medical emergencies. Concord's standard peripheral options come pre-installed and tested, so the system is ready to go right out of the box. For small to large retrofit applications, Concord is the ideal solution.

Customized security to meet your individual needs.

Ideal security means meeting your specific security demands effectively and efficiently. In addition to addressing your current needs, Concord® systems are designed to accommodate a changing environment. This built-in flexibility allows you to easily add or modify security components so that you're assured optimum security now and in the future.
